

JEREMY PANASUK

You built this fellowship for the American worker who never left the floor. I never left. Now I want Foundry and AIP in my hands.

CRISIS RECOVERED

WSL

DOCKER · CUDA · GIT

8h→1h

DAWN FOODS PLANT

~27×

MEASURED LOCAL DECODE

Builders who will wire a sensor, flash firmware, or ship production code. Who read a messy CSV and think instrument, automate, optimize. Who do not wait for perfect specs. Palantir wrote the American Tech Fellowship for that person. I am that person — 20 years on live plants, a garage GPU, Python, Linux, Docker, WSL. This is 12 weeks of Foundry and AIP. I will treat it like a deployment.

01 — YOUR SIGNALS

FACTORY FLOOR · 4+ YEARS ASKED · 20 DELIVERED

Cargill oils plants: BA overseeing plant ERP implementation. Horizon Milling: time-dimension production visibility — CFO Award 2005. Dawn Foods, Micron fab, Mercedes, Toyota. Physical process, unofficial specs, ship anyway.

GARAGE SHOP · FIREWORKS

Secret Key Class B shooter. Fireworks Forever — \$800K+ seasonal inventory. Load, wire, shoot, tear down. Then a private RTX 4070 in the garage. Measured. Published.

PYTHON · SQL · LINUX · GIT · DOCKER · WSL

Tabby Tavern on WSL2 + CUDA. local_grid_suite benches in SQLite. Dockroot-MCP. OpenClaw agents. TypeScript for this packet. I taught myself the new stack by shipping.

NO PERFECT SPECS · ITERATE

19 of 20 crisis accounts recovered. Milwaukee: three months dark, two days to close, one buried DB2 driver. Prototype, test, learn on the fly. That is the fellowship muscle.

02 — INDEPENDENT LAB · AUG 2024 – PRESENT

Private inference lab on NVIDIA RTX 4070 / WSL2: TabbyAPI EXL3, Ollama, Open WebUI, GPU passthrough. local_grid_suite: 1.39 → 37.47 tok/s after GPU routing (~27×). Dockroot-MCP: agents see Docker, not host-root. OpenClaw WhatsApp agents, 10+ skills. huggingface.co/jpanasuk/tabby-tavern-stack. This is the self-taught AIP-era stack. The fellowship puts Foundry and AIP on top of it.

Unpaid. Remote. Starts 15 September 2026. Two weeknights. 5–10 hours. Ontologize. AIP certification. Exceptional performers interview at Palantir or partners. I am not here for a stipend. I am here for the stack — and the door.

03 — SR. SOFTWARE DEVELOPER, TALEND · MOBE

Minneapolis · production data integration

Jul 2023 – Aug 2024

Talend 8. GitLab CI/CD. Redshift + SQL Server. 99.99% stability. On-call. Messy production, not a sandbox.

04 — INFORMATICA SPECIALIST · TATA CONSULTANCY SERVICES

PepsiCo · Ameriprise · Ace Hardware

Mar 2020 – Dec 2021

PepsiCo Grid/HA + DIH, NA/LATAM, v9→v10 zero data loss, Teradata → Big Data. Ameriprise IDQ/EDC/Axon. Ace Hardware PowerCenter → Big Data with the floor and QA.

05 — CONSULTING MANAGER / SEAL · INFORMATICA · JUN 2008 – OCT 2019

Analyst → Consulting Manager. Teams of 7–14. v7–v10 specialist. Consultant of the Year runner-up (2016). Parachute closer: 20 in, 19 recovered. The original FDSE motion — different badge.

8h→1h	Dawn Foods — plant CDC on AS/400. Featured on informatica.com.	7,000h	Micron — fab. \$3M extensions. Zero downtime.
+200%	Mercedes-Benz — longest workflows. Playbook stayed.	\$800k	Toyota — Engine Management go-live. All 5/5.
20+ nodes	MF Global — world-first Grid/HA + DR.	\$2.3M+	BNY Mellon — Grid/HA with senior VPs and CEO.
\$10M+	JPMorgan Chase — DW / CoE roadmaps.	\$2M	Kohl’s — v9 Grid/HA. Through S-VPs.
\$600k	Smith & Nephew — FDA-validated platform.	3,000h	Navy Federal — architecture through go-live.
–50%	West Bend Mutual — real-time SOAP/XML.	v9	Harvard — Version 9. Off-load Solaris.

Sr. Integration Engineer · Prime Therapeutics

Jan 2007 – Jun 2008

Medicare + MTM data marts. Above grade-level.

Business Analyst, Oils Plants · Integration Associate · Cargill

Dec 2004 – Jan 2007

Oils plants: BA overseeing plant ERP implementation. Demantra (separate): demand planning. Won the Quarterly Award for Excellence, Oct 2006, for Demantra.

Horizon Milling: production visibility on a time dimension so plants and accounting saw the same facts — CFO Award 2005. 24/7 warehouse/ODS.

<i>“His knowledge not only of the Informatica suite but also at the operating system level has been truly invaluable.”</i> DAWN FOODS	<i>“He’s a rock star out at Dawn.”</i> INFORMATICA IPS
<i>“One of the best that Informatica has to offer in Jeremy.”</i> MF GLOBAL	<i>“I trusted that Jeremy would deliver, with quality.”</i> PRIME THERAPEUTICS

GARAGE · SECRET KEY / FIREWORKS FOREVER · 1996–2004

Class B shooter. \$800K+ seasonal inventory. No schema, no second take. The American workshop Palantir is writing hymns about. I already lived it.

06 — STACK · REQUIREMENTS

Code · Python · SQL · JavaScript/TypeScript · Docker · Linux/WSL2 · Git · GitLab CI/CD

Data / AI · Informatica · Talend 8 · Teradata · Hadoop · Redshift · Oracle · SQL Server · DB2 · Ollama · MCP · RAG

Physical ops · oils plants · Horizon Milling · food · auto · fab · Class B fireworks · inventory

This posting · 2+ years (20+) · Python · no degree required (BBA MIS, UW–Eau Claire) · remote · unpaid 12-week cohort · AIP/Foundry via Ontologize
